

Pharma Collaboration for Transparent Medical Information

phactMI™ is a collaboration of pharmaceutical company Medical Information (MI) departments that are dedicated to supporting healthcare professionals in their commitment to provide quality patient care.

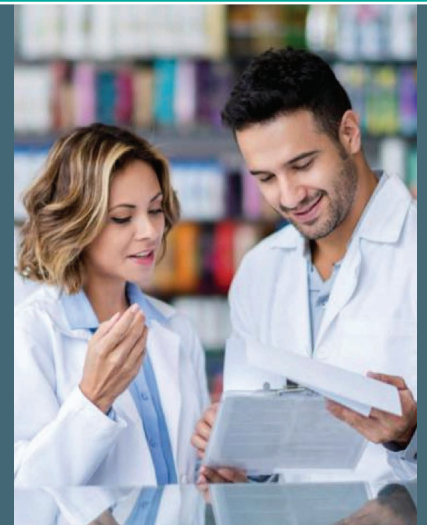

At phactMI™, we understand that healthcare professionals have a wide range of medical information needs. As a consortium of the MI departments of multiple pharmaceutical companies, phactMI is in a unique position to provide support to them.

www.phactMI.org

phactMI.org is a unique web portal that provides easy access to the resources of the MI departments of phactMI member companies.

phactMI.org can help healthcare professionals access current, accurate, and scientifically-balanced medical information, helping them to make informed clinical decisions in patient care.

phactMI™ exemplifies how pharmaceutical company collaboration can bring value to patient care by creating a convenient and reliable resource for healthcare professionals when making treatment decisions.

Pharma Collaboration for Transparent Medical Information, known as phactMI™, is a non-profit consortium comprised of MI departments of multiple pharmaceutical companies. phactMI.org provides easy access to the resources of phactMI member company MI departments including, but not limited to, information on drug interactions, efficacy and safety, stability/compatibility, and dosage and administration.
